Our Story in Three Parts

CHAPTER 01

Where We Started

The origin story, the problem we saw, and why we knew we had to do something about it

CHAPTER 02

How We Grew

The journey, the lessons learned, and the people who made it all possible along the way

CHAPTER 03

Where We're Going

Our vision for the future and the exciting opportunities that lie just ahead of us

What We've Learned Along the Way

3 core principles that guide everything we do

INSIGHT 01

Empathy Drives Everything

The best solutions come from deeply understanding what people actually need, not what we assume they want

INSIGHT 02

Progress Over Perfection

Shipping something good that helps people today beats waiting to ship something perfect that never arrives

INSIGHT 03

Community is the Product

The connections we enable between people are often more valuable than any feature we could build ourselves
