

DISRUPTING THE SUPPLY CHAIN WITH AI-DRIVEN ROUTING.

VentureTech: The Future of Cloud Logistics

THE PROBLEM

The Inefficiency Gap

Current logistics networks waste 14% of transit time due to static routing. This costs the industry \$12B annually and increases carbon footprint.

OUR SOLUTION

Dynamic AI Routing

Our proprietary algorithm predicts traffic patterns and delivery windows, adjusting routes in real-time to save 20 minutes per driver daily.

TRACTION

Early Metrics & Milestones

12 Enterprise Pilots running. 94% retention rate after 3 months. \$2.4M

ARR achieved in Q3 2025.

VISION & TEAM

Join Our Journey

Founding team from Amazon & Uber Freight. Raising \$5M Seed round to expand into the European market.
